

Studio 6

Studio 6 at AED Studios offers the perfect blend of functionality and atmosphere. By day it serves as our company restaurant, but thanks to its plug & play design it transforms instantly into a stylish event venue for up to 300 guests.

With a built-in bar, stage, and professional sound & lighting setup, Studio 6 is ideal for corporate events, presentations, or even weddings. The 300 m² covered terrace adds an extra dimension: a refreshing spot for summer BBQs or a cozy shelter for winter aperitifs. Whatever the occasion, Studio 6 delivers flexibility, comfort, and a welcoming setting.
